Intense Collection

High gloss marble is often used for decorative purposes, such as flooring, countertops, and decorative accents in buildings and homes. It is important to note that high gloss marble requires regular maintenance to keep its shine, as it is prone to scratches and dulling over time

MULTIPLE SANSATION

A STORY THAT ADDS NEW CHAPTERS EVERY TIME. Hidden away in the varied multi-faceted appeal of marble are stories from the past and present pulsating with life. A fine line separates the artificial from the natural, when light spreads through and leaves its mark on surfaces strongly bonded with the living styles of the future.

The inspiration comes from Italian Living origin: the distinctive Marble and the deep Fusion Effects, both crossed through by white veins and with a small-medium grain.

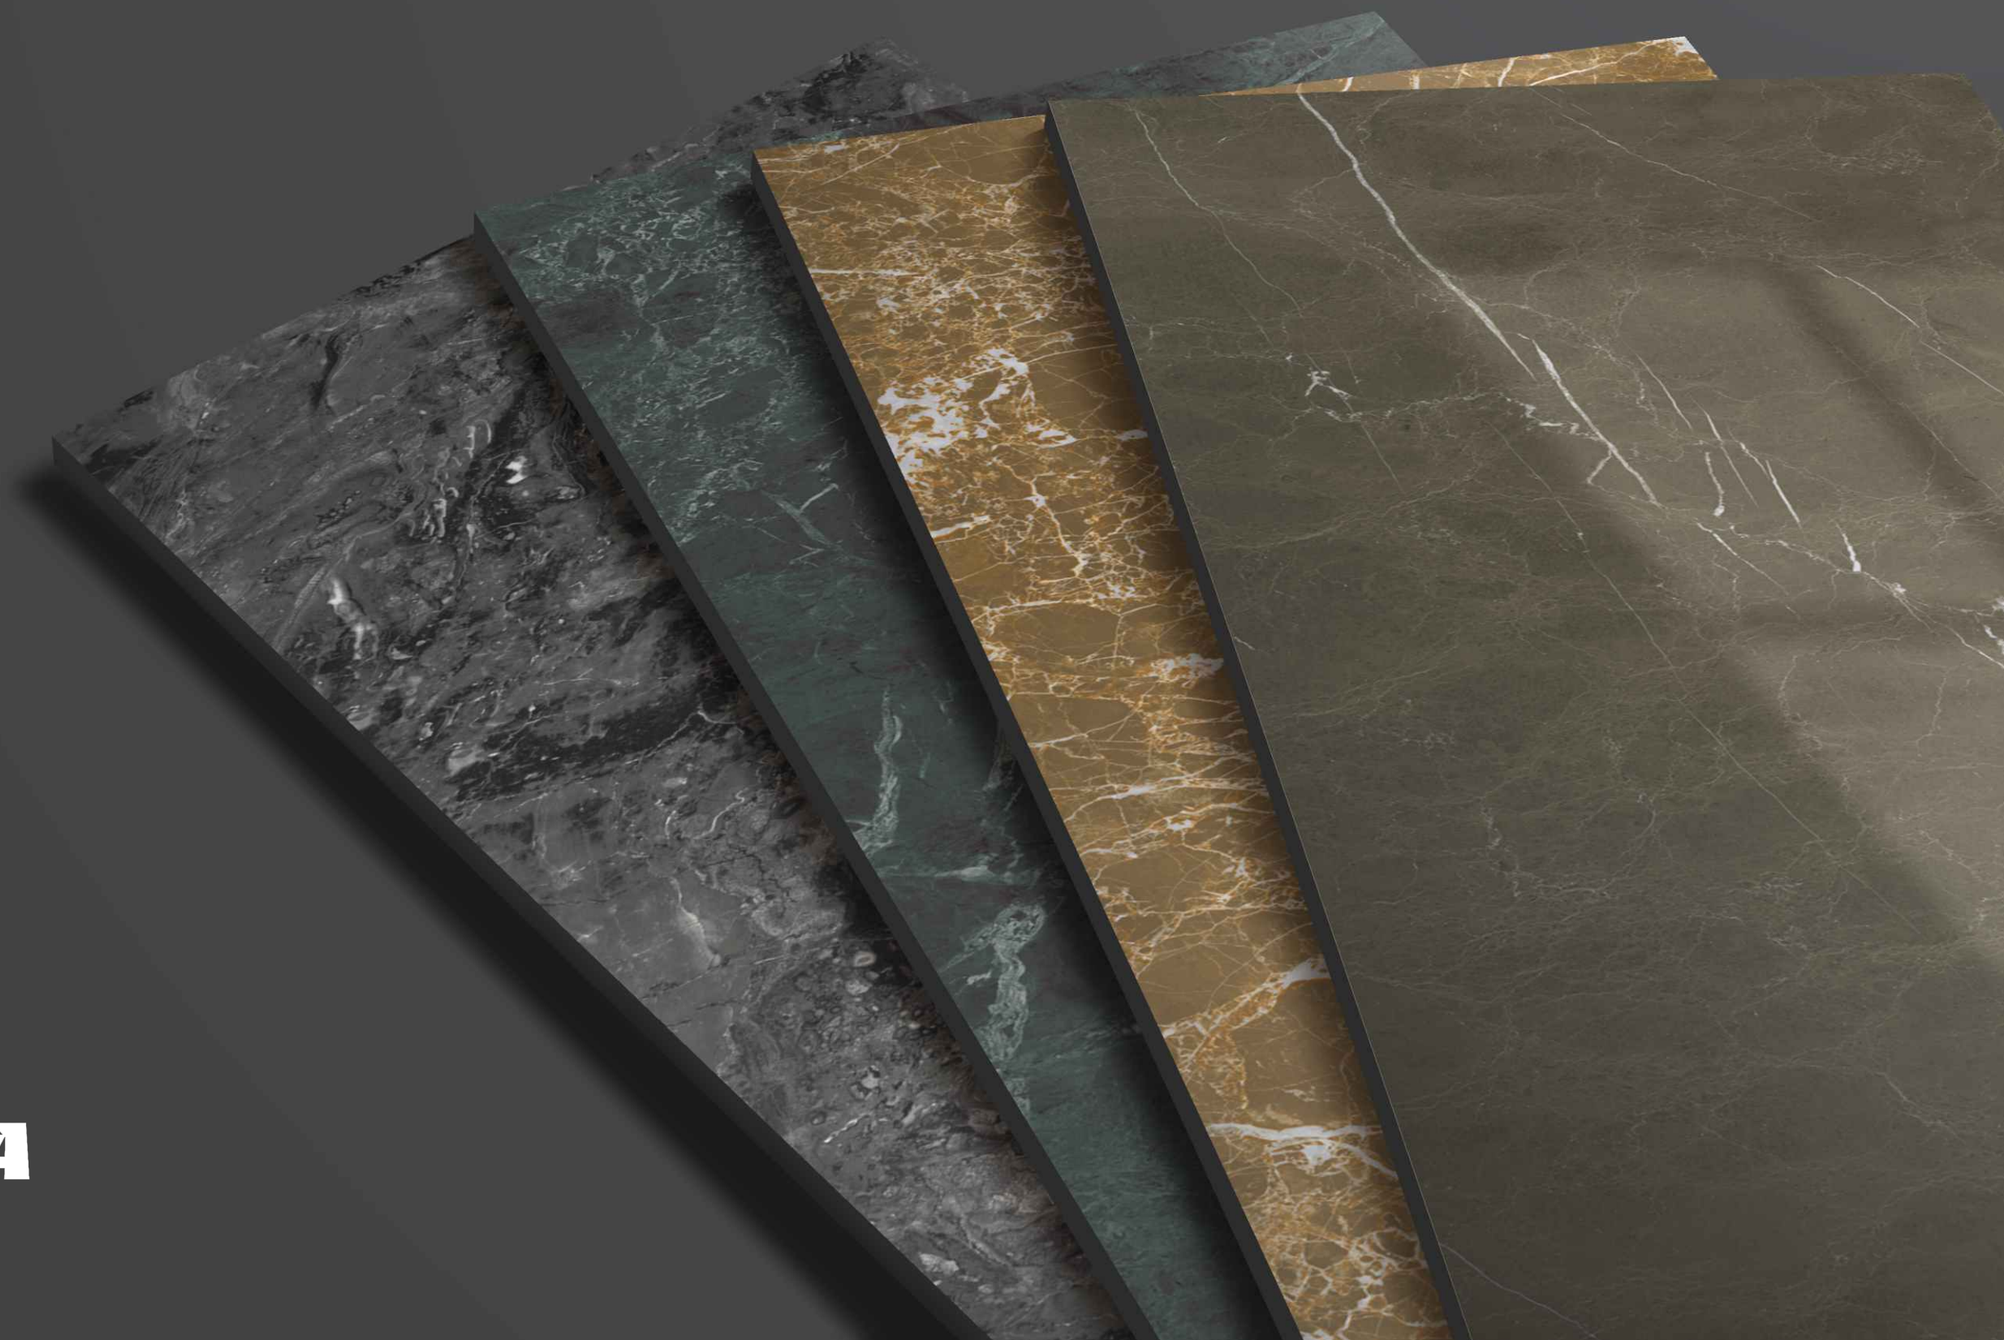

The other colors start out from black, gradually shifting through dark and light grey to white. The subtle texture and veins, tempered a very light reminiscent Of the night sky in black, give the product a smooth, extremely sophisticated appearance.
