15mm Thickness _ **Glossy & Matt** Surface

SUPERIORITY CRAFTED FOR EXCELLENCE

Experience the dominion of sheer luxury and excellence in surfaces crafted for supremacy.

ELEZZO
COLLECTION

CRAFTING SUPERIOR SPACES FOR EXCEPTIONAL LIVING!

We bring you Elezzo Collection - A collection synonymous with sheer luxury and unmatched opulence to evolve your spaces into flawless, grand, and simply stunning evoking a sheer sense of extravagance and indulgence.

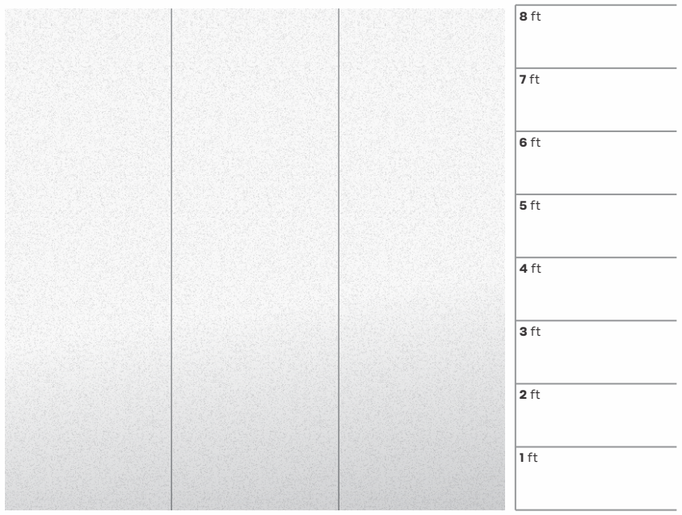

Decorate your spaces undeniably lavish and gracious with a premium collection of surfaces from the Elezzo Collection. The collection redefines the art of lavish interiors and spaces with its spellbinding elegance that embraces refinement and splendor effortlessly to help you craft spaces superior of all and luxurious at another level.

Elezzo Collection **800x2400mm** **15mm Thickness**

EXPLORE ENDLESS POSSIBILITIES IN LUXURIOUS SPACES

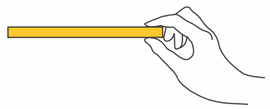

Discover limitless possibilities to seamlessly elegant and flawless spaces with Elezzo Collection in its grand size of 800x2400mm. The colossal size paired with unmatched brilliance of two spectacular finishes and robust thickness of 15mm is all it takes to design spaces utterly elegant and sophisticated.

800x**2400**mm

80x240cm, 32x120in

15mmThickness

Elezzo Collection **800x2400mm** **15mm Thickness**

We bring you an astonishing collection in superior Matt and Glossy surfaces. The versatile surfaces are capable of instilling unmatched elegance and poise in your spaces paired with outstanding designs and patterns.

Matt Surface

Glossy Surface

DESIGNED FOR AN EFFORTLESS LIFESTYLE

The superior Elezzo collection is an assembly of superior surfaces packed with exceptional features that are specially designed to make your lifestyle effortlessly easier and lavish at the same time. The features aid the modern lifestyle by transforming your spaces into easy to clean, maintain, and ideal for versatile uses.

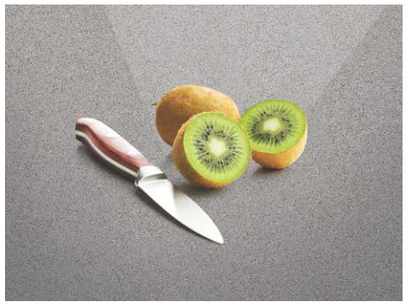

TECHNICAL FEATURES

- Scratch and Abrasion Resistant
- Resistant to Chemicals, Acids, Bases, and Solvents
- Easy to Clean Surface
- Resistant to Fire and Heat
- Frost Resistant Surface
- Flatness and Stability Over Time
- Hygienic and Suitable for Contact with Food
- Water Resistant Surface
- Stain Resistant Surface
- Impact Resistant Surface
- Resistant to UV Rays
- Resistant to Mould, Mildew, And Fungus

SURFACES FOR EVERY SPACE

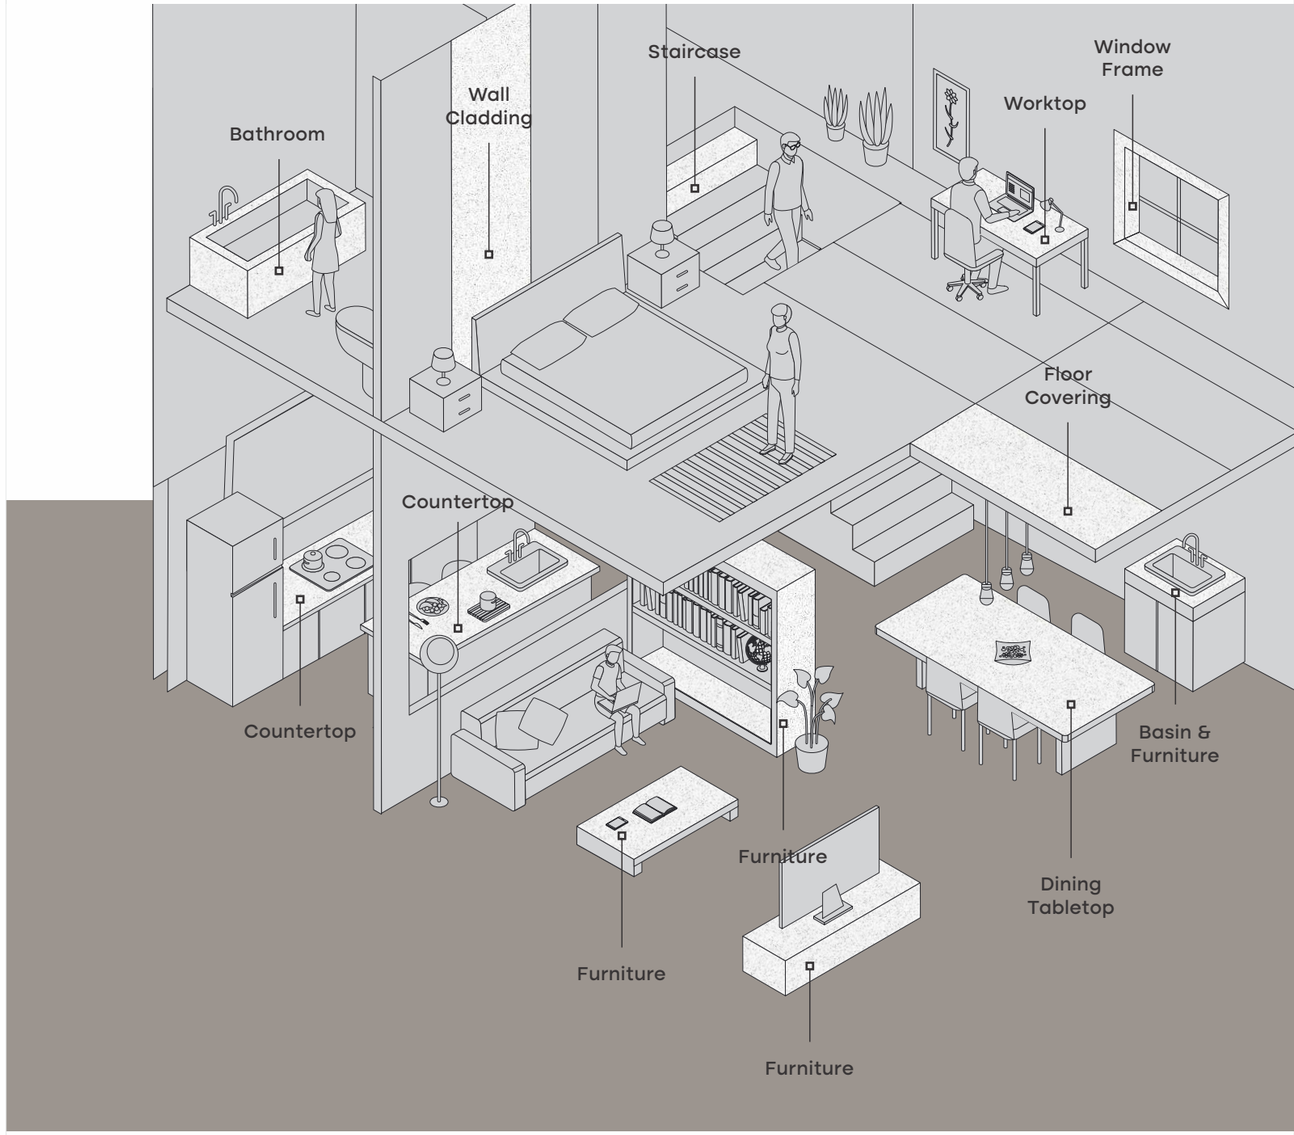

The surfaces of the Elezzo Collection are functional, multifaceted, and simply dexterous. The versatile size of the collection paired with the exceptional features enables the wide application possibilities allowing tiling solutions to a plethora of spaces and furnishing.

APPLICATION AREAS

Application Areas

- Countertop
- Staircase
- Dining tabletop
- Window & Door Frame
- Lift Frame
- Basin & Furniture
- Bathroom
- Fireplace
- Worktop
- Wall Cladding
- Elevation
- Floor Covering

Slab Handling

Tools suggested for handling

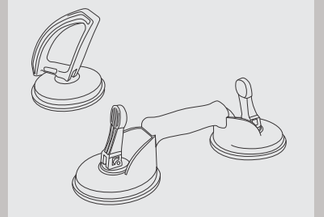

For handling the enormously sized slabs, we recommend careful handling with the help of four handlers at the same time in case of the largest size and at least two handlers for the smaller sizes of the slabs.

Reinforced trolley

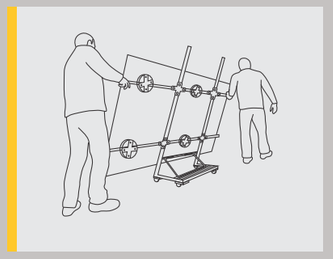

Parallel & transverse guides

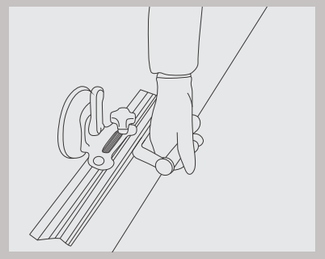

Single & Double suction cup

Handling instructions

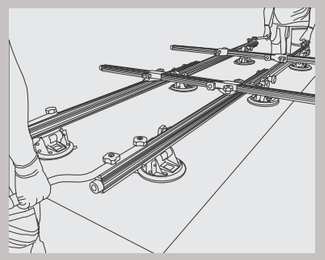

We recommends the use of a kit of devices designed especially for the handling of large-size slabs.

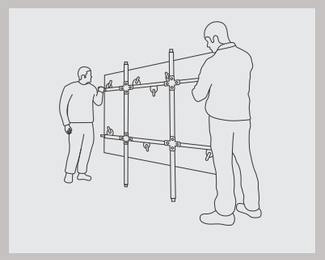

We recommend carrying out the handling job of the slabs with four handlers at the same time.

Ensure proper suction with a vacuum between the device and the slab and use a single device/suction cup for a maximum length of up to 150cms.

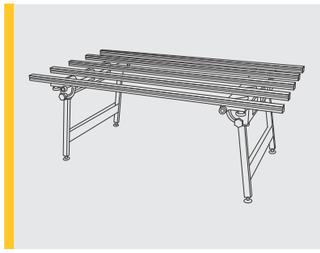

To lift the slabs use sucker cups after cleaning the slab and cups with a damp sponge. Make sure the device also has suckers that run along with the guides and adhere to the slab.

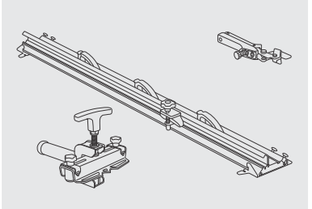

To lift the slab use guides from the long sides of the slab and lift/hang it vertically to the handles of the trolley frame. Use appropriate size reinforced trolley for various sizes of slabs.

Slab Cutting & Drilling

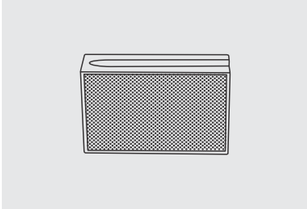

Tools suggested for cutting and drilling

Workbench with aluminum profiles

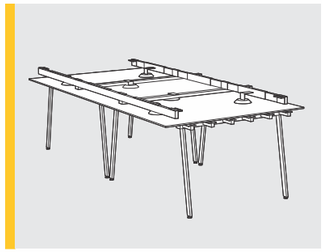

Cutting unit

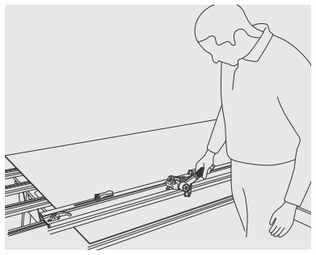

Diamond polishing pads

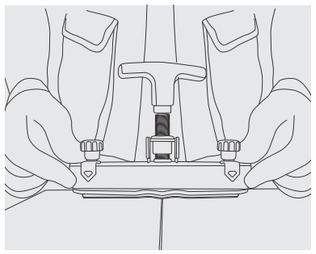

Manual cutting instructions

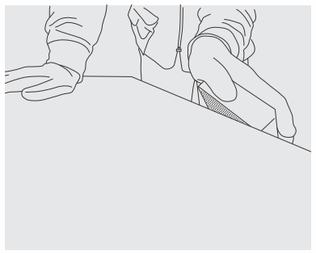

Lay the slab on a flat surface and preferably on a workbench with aluminum profiles. Make sure the surface is stable for both cutting and drilling.

Make markings on the slab according to the desired cutting and drilling need.

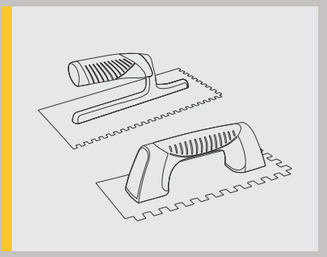

After scoring the length and making the cut, move the slab out of the workbench till the incision line and split from both sides using cutting-off pliers.

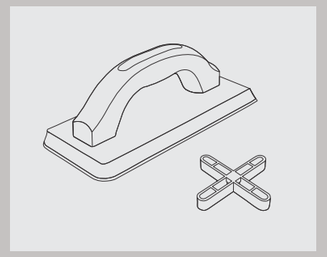

Smooth the edges of the length cut with a diamond polishing pad.

Slab Laying

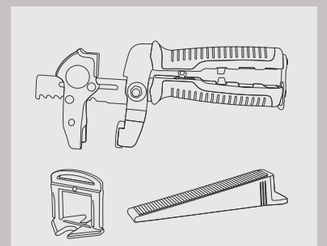

Tools suggested for Laying

3mm & 10mm trowel

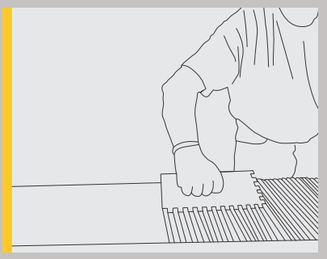

Rubber trowel & spacers

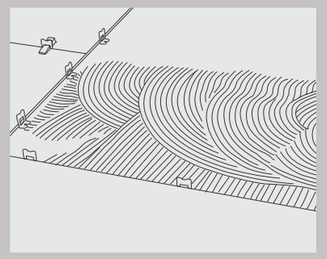

Device for plate's pulling over and leveling wedges & clips

Slab Laying Instructions

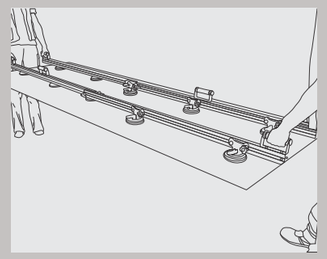

Check the laying substrate. Make sure it is clean, mature, and homogeneous with no cracks.

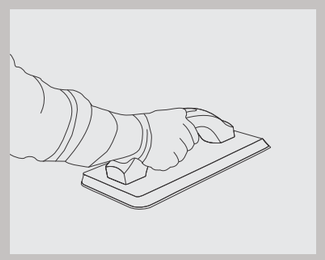

Apply adhesive onto the back of the slab with a 3mm trowel in one direction only.

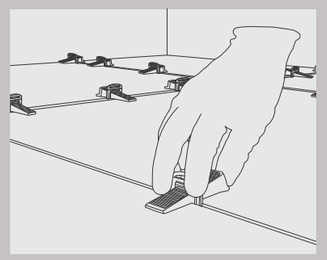

Apply adhesive onto the floor substrate at the same time while applying on the slab with a 15mm U-notch or 19mm V-notch trowel in the same direction as the slabs.

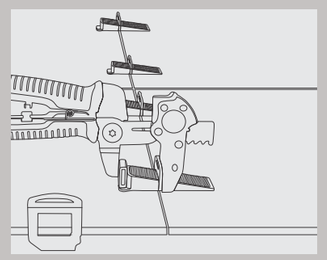

Position the slab on the adhesive bed with a sucker frame with adjustment of a minimum of 3mm joint.

Tap the slab from the center to the edges with a rubber trowel to expel air. Make sure air is expelled and there is no bubble between the slab and the substrate.

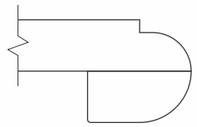

Complete the laying of the slab with a suitable sealant while keeping a 3mm joint through spacers. The special device of pulling over the slabs can be used for easy laying and spacing.

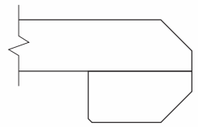

Level the wedges at each linear meter of the slab.

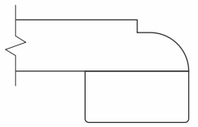

Slab Edge Possibilities

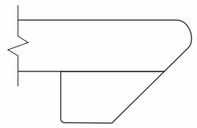

1-1/2" Dupont Bullnose

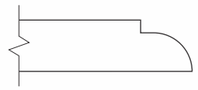

1-1/2" Pencil Edge

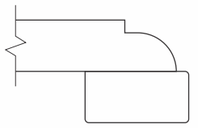

1-1/2" Dupont Square

1-1/2" Reverse Bevel

3/4" Dupont Demi

1-1/2" Dupont Step Square

Cleaning & Maintenance

High-quality raw materials, rigorous production parameters, and world-class technology make the exclusive offering nonporous and thus no dust or deposited waste penetrates the surface.

The no-maintenance surfaces require only a damp cloth for cleaning.

Routine and recurring cleaning spotlights the aesthetic features of the surfaces and keeps the surfaces shining.

For cleaning contamination and stains caused by some common food and other material follow the table below:

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Baking Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Agent, Hydrochloric Acid
Cement	Acid	Hydrochloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydrochloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get cleaned immediately/as soon as possible.
