SERONA

THE TILE COLLECTION

IS DESIGNED FOR

simple living, a small size for you,
Its where you can get cosy,
where you live, your special corner.

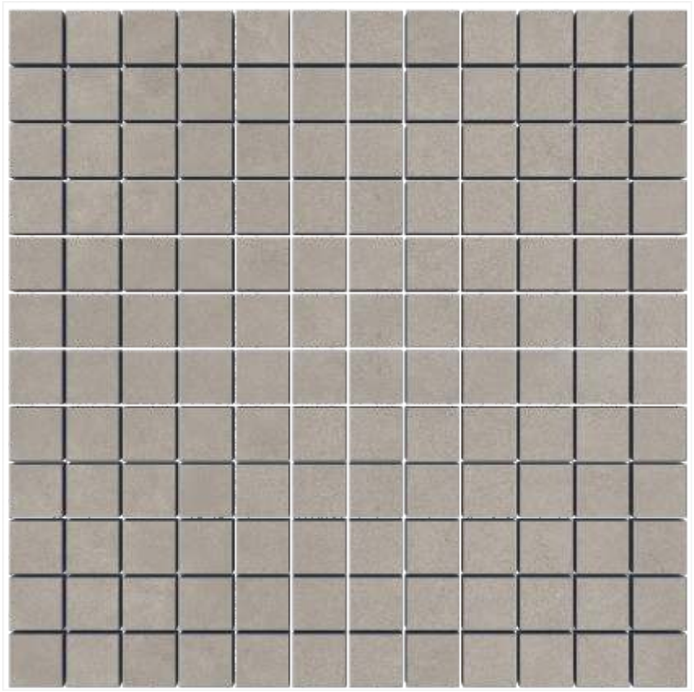

TECHNOLOGY

Positioned towards state-of-the-art technical production, the visible surface of the ceramic High-Tech technology is shaped on the basis of mineral elements with a high decorative value. These materials are chosen by the following three features: colour, brightness and appearance, while being precisely prepared for all ceramic models.

we connect designs based on matching variants.

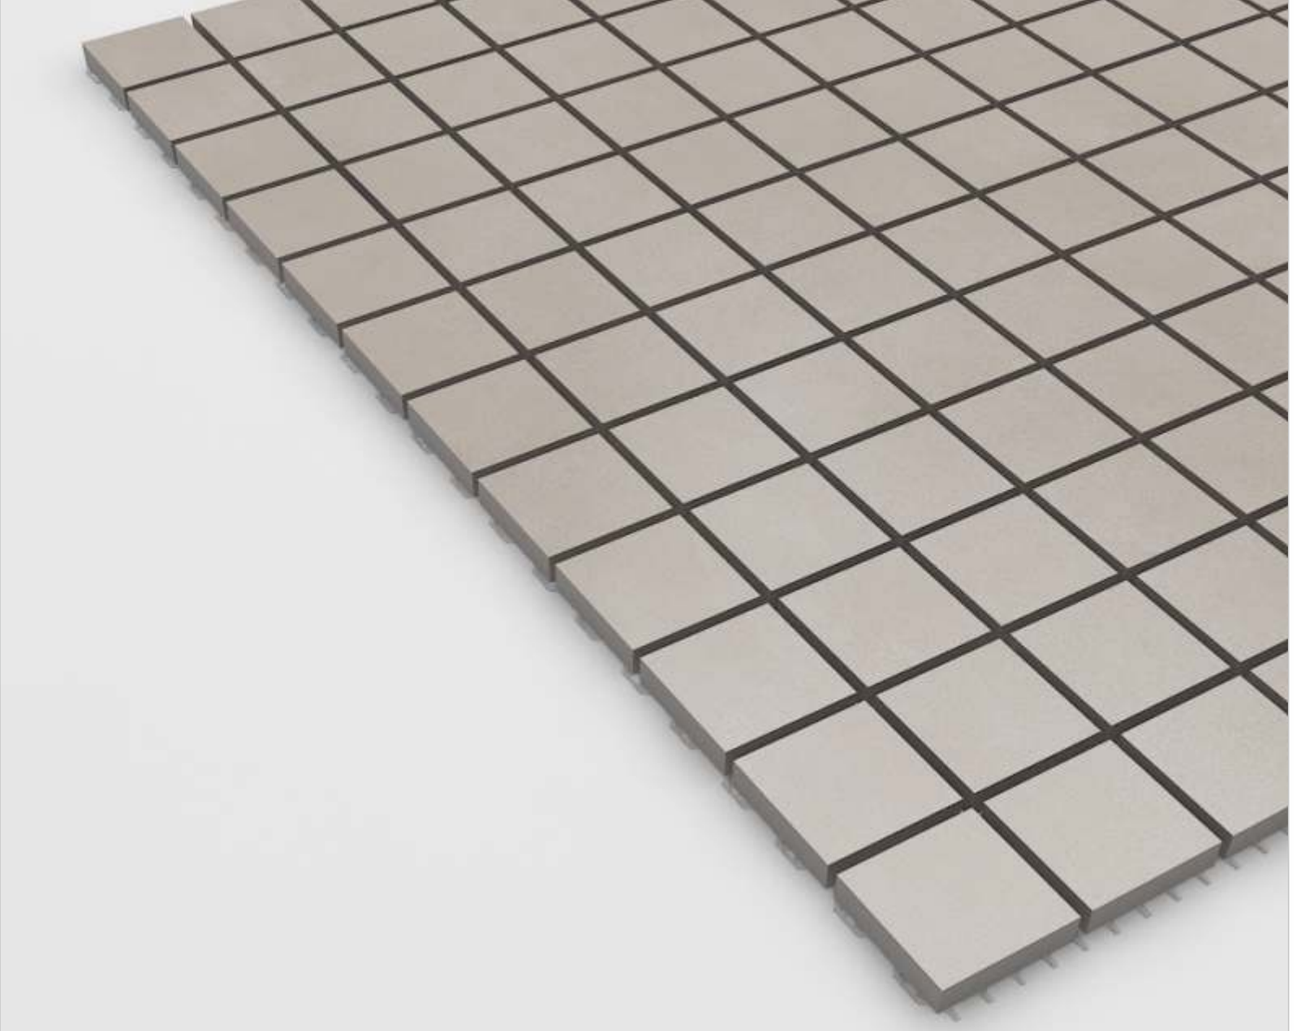

SERONA

EVERY SPACE NEEDS ITS OWN SHAPE.

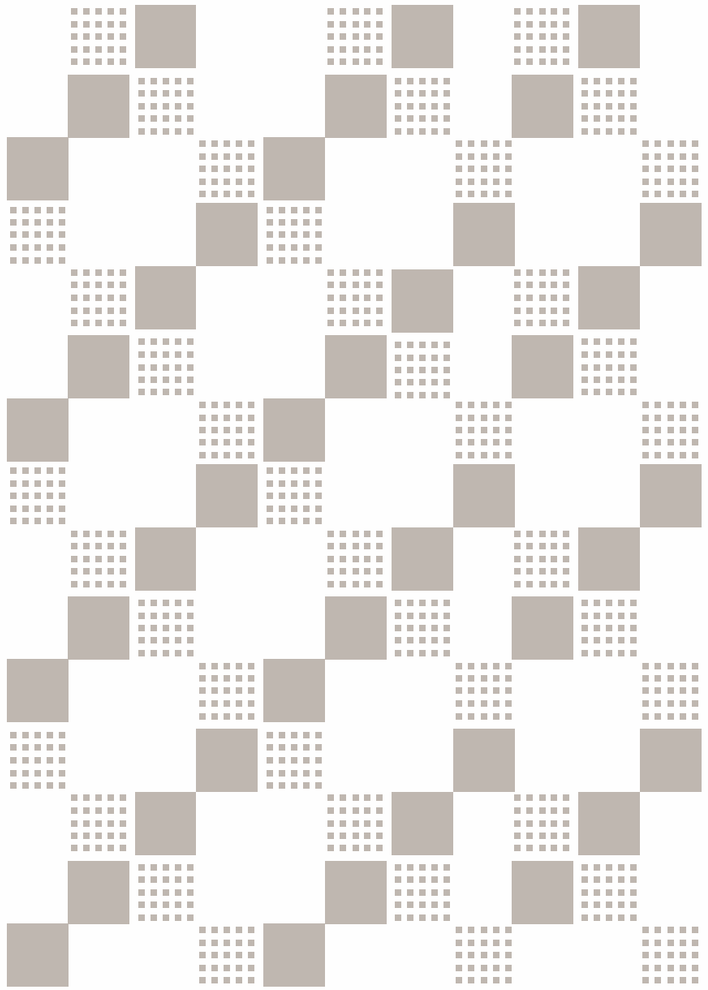

SMOOTH SURFACE DESIGN

Depending on the material they are made from, they can be easily applied to flat and curved surfaces, used to cover large areas or to provide a simple accent or contrast.
